## MY STORY AND CLIENTS

My career has taken many turns both nationally and internationally. I have worked in Northern Ireland, Mérida, Madrid, and Salamanca, and with clients from the USA, Germany, Spain, Australia, Switzerland, and Georgia.

Some of my clients or projects while working for companies have included **Thorchain**, **AXPO Renewables**, **Helio**, **XchainJS**, **Wempler**, **Swapper DEX**, **Jade Finance** and **Acteno Energy GmbH**.

I have been an intern, an employee, a Lead Product Designer, and I have even managed to become a partner in a mid-sized company.

I am familiar with many methodologies, end-to-end processes, and I have both technical and management skills.
